# BE PREPARED FOR YOUR ANALYSIS

The following information is important in relation to your appointment.

#### When you arrive for your appointment:

- Please arrive at least 5 minutes before your scheduled time as you may be required to complete a pre-screening questionaire.
- You will then be asked to change into the appropriate clothing (if not already wearing them) in preparation for your analysis.

#### What to wear for your analysis:

- All 3D analysis require shorts above the knee or skin tight leggings. *Note: clothing can be provided on the day of your analysis.*
- The appropriate footwear (i.e running shoes, work shoes) and any orthotics if applicable.
- For 3D Running and Jumping analysis we encourage female patients please wear a crop top or sports bra as reflective markers are applied on your upper body.

#### What to expect for your analysis:

You will meet the senior biomechanist on the day who will take you through a tour of the lab where you analysis will be conducted. Your analysis will be conducted in a private setting. Please allow at least 1 hour for your analysis. If you have any questions please contact our team on (08) 7130 0130.

### Location

Parking is available onsite at the front of our clinic.

91 Kensington Road Norwood, SA 5067 T (08) 7130 0130 F (08) 8431 0130 admin@thebiomechanicslab.com.au www.thebiomechanicslab.com.au
