

## DR. CHRIS BISHOP PHD

Founder of The Biomechanics Lab  
Sports & Orthopaedic Podiatrist  
Director of Biomechanics

**"My passion is using advanced 3D Gait Analysis to help patients both understand the cause of their pain and inform their ongoing management"**

My clinical focus is in helping patients with complex foot and ankle pain better understand the function of their foot and ankle so that we can design treatments to have a real impact on their quality of life.

I completed my PhD on footwear biomechanics and plantar heel pain at the University of South Australia in 2016 and completed a prestigious industry funded Post-doctoral fellowship in the area of footwear, running biomechanics, human performance and physiology from 2017-2019. I am a Fellow of the Australasian Sports Medicine Federation.

Current roles:

- Consultant Biomechanist - ASICS Footwear
- Podiatrist (South Australian Sports Institute)
- Podiatrist (South Australian Cricket Association)
