

TOM MAY

Sports Podiatrist

"Managing sports injuries always keeps me on my toes and that's what I enjoy most. Having athletes return to their pre-injury state gives me a sense of pride"

Working with athletes of any calibre whether it be elite or recreational is what I have a passion for. I enjoy being able to improve performance through biomechanics and treatment for pain free movement. Being the Leading Podiatrist at the Adelaide Crows I see a lot of football related injuries and pride myself on being up to date with the latest treatment in this area. I also specialise in rehabilitation, lower limb biomechanics and all other sporting injuries.

- Bachelor of Podiatry
- Masters of Health Science (Podiatry)
- Clinical Supervisor (University of South Australia)
- Leading Podiatrist
(Adelaide Crows Football Club, AFL, AFW & SANFL)
